Appraisers Tell Us Why They Use Appraise-It Pro

Recently we asked appraisers why they like Appraise-It Pro. We appreciate all the positive responses. Here are a few:

- I found it easy to use. My transition time from Appraise-It was almost none.
- If I ever have to reprint a revision, Appraise-It Pro remembers it.
- Automatic text resizing and building custom reports for reuse are quick and easy.
- The transition from Classic to Pro was straightforward with a minimal learning curve. After the first week I shaved a good 45 minutes off my time on completing a desktop, full appraisal.
- I see vast improvements in common responses. They are right there in a panel and I fly through them. Fkeys are still there as a back up, but I never use them now.
- Technical support response time for Appraise-It Pro is amazing - the best I have ever seen.
- It is easier to use and navigate than other software I have used.
- My PDFs look great now.
- Appraise-It Pro easily saves at least half an hour or more on each report.
- Just like Appraise-It Classic, Appraise-It Pro is second to none.
- Technical support was always there to answer any questions. Once I used Appraise-It Pro I never looked back.

Now is the time to download, install, and start saving time with Appraise-It Pro. Our technicians will assist by email, phone, chat, or one-on-one appointments. Call today.

Attention Windows 7 Users - It is Time to Upgrade

Windows 7 is more than 10 years old. Microsoft ended their support in January 2020.

We highly recommend all current Windows 7 users upgrade as soon as possible. It is important to note that new updates to Appraise-It and Appraise-It Pro will not work in Windows 7. Call technical support for assistance if needed. 1-800-644-0872.

Reminder:
- Make plans now to attend Valuation Expo in Las Vegas on September 8 - 10.
- All SFREP offices will be closed on Monday, July 5 for Independence Day. Technical support staff will be available for the weekend.
